

# Fireproofing Firestopping

Ensuring Safe Buildings and Structures

- Fireproofing
- Firestopping
- Intumescent Coatings
- Acoustical Sprays

## Trusted Firestopping and Fireproofing Experts

Beyond Thermal is Alberta's trusted source for passive fire protection. Our expert installers work diligently to ensure the protection of your building by providing tested fire rated systems to save lives, property value and minimize environmental impact due to fire.

2lb closed-cell polyurethane foam produces excellent results for air seals and for tying in q-decking. The tight closed-cell structure of the foam also creates an air barrier between rooms and levels where fumes typically penetrate and jeopardize air quality.

## BEYOND GROUP OF COMPANIES
